

SA Montessori Pre-schools Policies

Immunisation Policy

Statement

SA Montessori Pre-schools aim to uphold its obligation under the laws of the Work Health and Safety Act 2012 Division 2, Section 19, Subsection 3 (A) to provide a safe and healthy environment for employees, children and visitors attending the centres.

Rationale

Children who are not immunised may place themselves and other members of the centre at risk through the possible introduction of an infectious disease. From 7 August, 2020, the South Australian Public Health Act 2011 (the Act), outlines that children will not be able to enrol in or attend early childhood services unless all immunisation requirements are met. All children attending our centre must be immunised according to the Australian Standard Vaccination Schedule.

Procedures

- The Immunisation policy is effective from 1st July 2003.
- SA Montessori Pre-school Centres will not enrol children without approved records that they are 'up to date' according to the Australian Immunisation Register, as per the Australian Standard Vaccination Schedule.
<https://www.health.gov.au/topics/immunisation/when-to-get-vaccinated/national-immunisation-program-schedule>
- Parents will need to provide an approved immunisation record from the Australian Immunisation Register (accessible via Medicare) as evidence of the child's 'up to date' immunisation status.
- Homeopathic vaccination is not accepted.
- A current approved immunisation record needs to be supplied:
 - at the time of the child's enrolment;
 - after the child turns 7 months of age but before the child turns 9 months of age;
 - after the child turns 13 months of age but before the child turns 15 months of age;
 - after the child turns 19 months of age but before the child turns 21 months of age;
 - after the child turns 4 years and 2 months of age but before the child turns 4 years and 8 months of age.
- Where a child is on an 'approved catch up schedule', enrolment is not guaranteed until they are 'up to date'. Families may lodge a request that will be considered by centre owners to commence enrolment during the 'approved catch up schedule' depending on the timeframe and circumstances.
- Once enrolled, if a child does not remain up to date with the immunisation program for any reason (including, but not limited to, health exemption or conscientious objection), parents will be required to remove their child from the service. The forfeiture of enrolment may be effective immediately and the centre is not required to provide the parents with a notice period.
- The services will make available to families and staff information on immunisation schedules and clinics where possible
- Where appropriate the centre will invite health care professionals to address parents and staff on immunisation and related health matters

Training and awareness

This Policy will be accessible through the SA Montessori staff Onboarding and Ongoing Development course to ensure staff are knowledgeable about its principles, contents and requirements.

'SA Montessori' Definition

For the purposes of these Policy documents the term 'SA Montessori' refers to a collective of centres functioning as a professional network with shared management through 'MMM'. These documents have been developed by MMM with intellectual property rights retained. By accepting these Policy documents, the company directors, approved providers and/or persons with management or control (PMCs) of each entity acknowledge that these policies do not release them from their responsibilities, obligations, or liabilities.

SA Montessori Pre-school centres include:

Cedars Montessori Pre-school
 Chancery Lane Montessori Pre-school
 Echoes Montessori
 Jescott Montessori Pre-school
 Little Oxford Montessori
 Lilliput Village Montessori
 Rosemont House Montessori

Review date

All SA Montessori Policies will be reviewed at least annually by MMM. In addition to the annual review, individual policies may be adjusted at any time in the event of community feedback, changes to guiding documents or legislative updates.
